THE BASICS

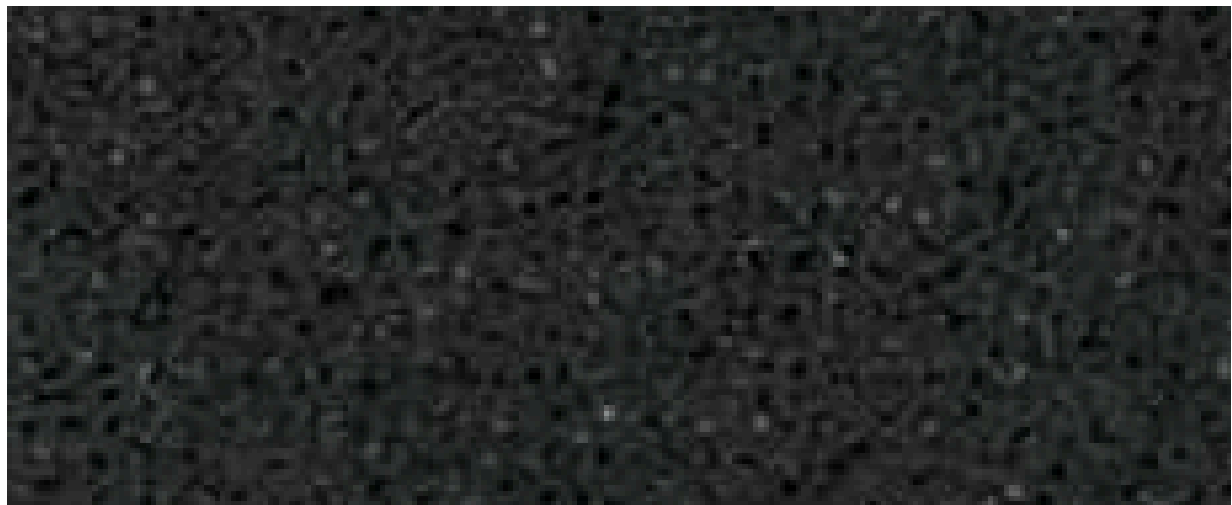

QUIET LUXURY

Solid tones distilled to their purest form. Minimalist surfaces where color is restrained, proportions are intentional, and elegance speaks through simplicity. Designed for spaces that value precision over excess.

 Dimensions:
10' 9" × 5' 5"

 Thickness:
3/4" - 1 1/4"

 Finish:
Polished

QUIET VEINS

THE ABADI GROUP

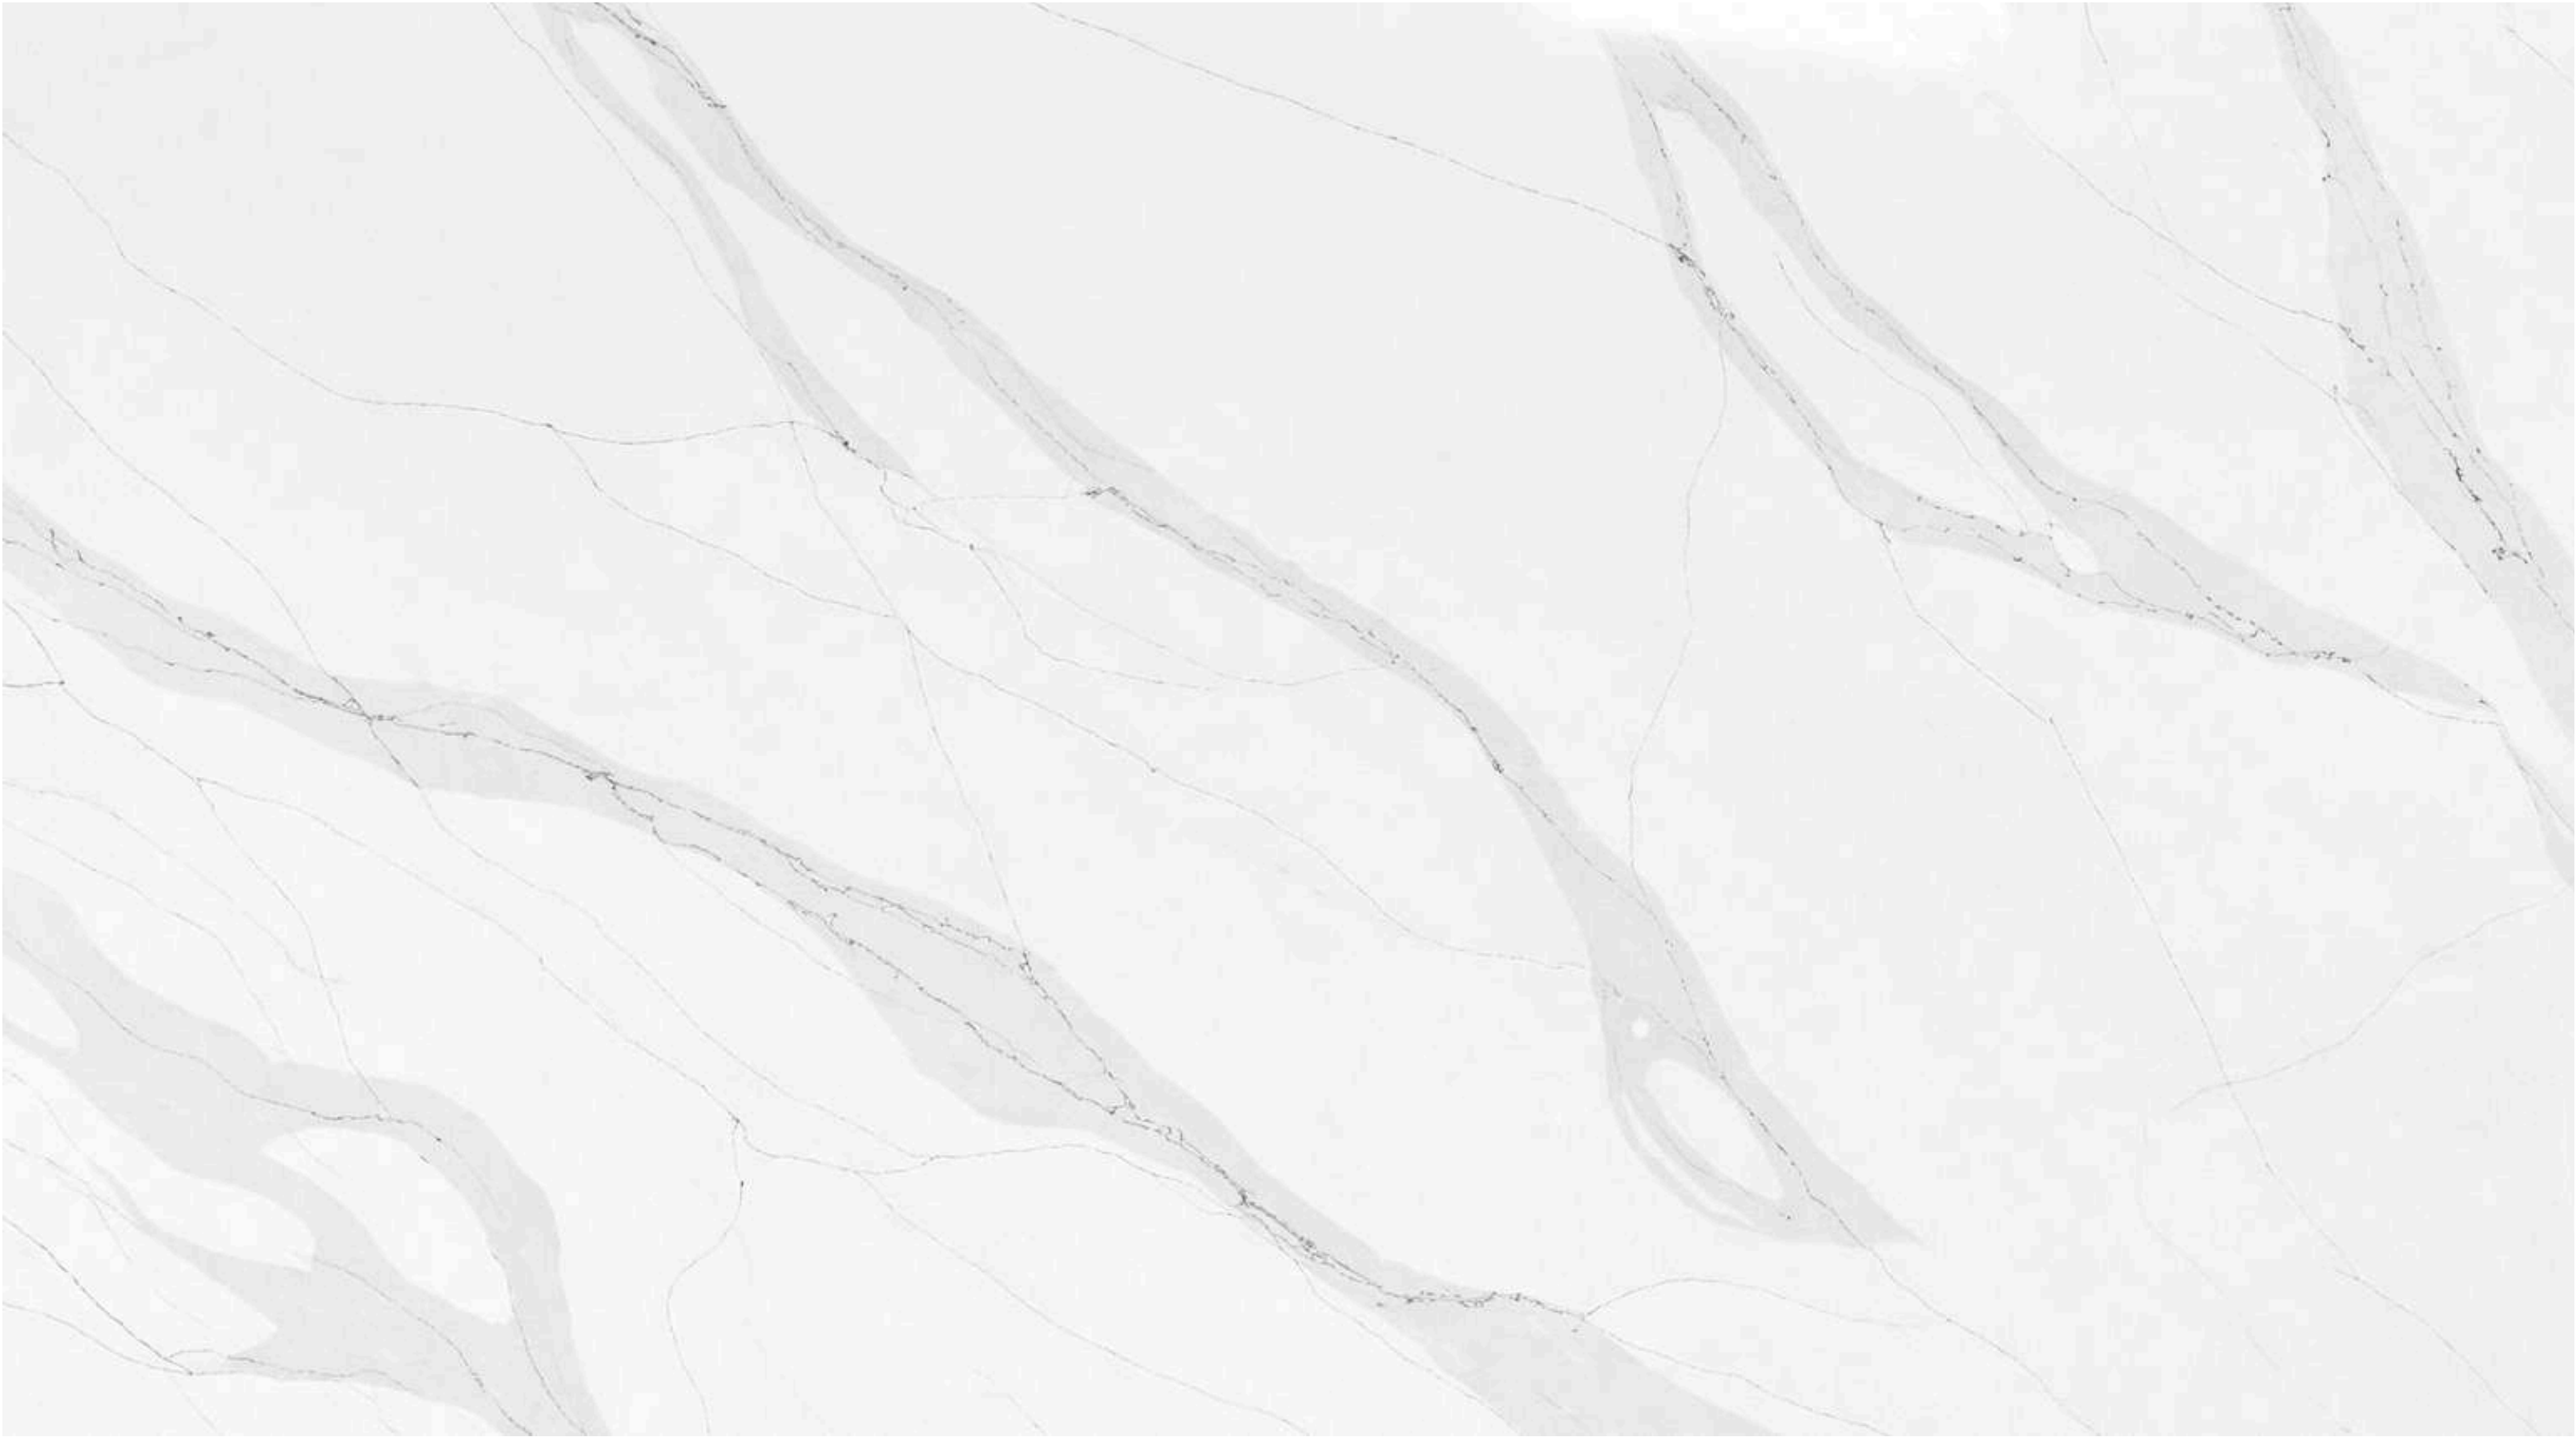

VEINS IN BALANCE

Stone veining adds rhythm and depth to a space, bringing natural movement to architectural surfaces. When paired with calm materials and neutral textures, veins become a refined accent—expressive, yet intentional. Used with restraint, they transform stone into a quiet architectural statement.

10' 9" × 5' 5"

↪ Thickness:
3/4" - 1 1/4"

📦 Finish:
Polished

THE STATEMENT

THE ABADI GROUP

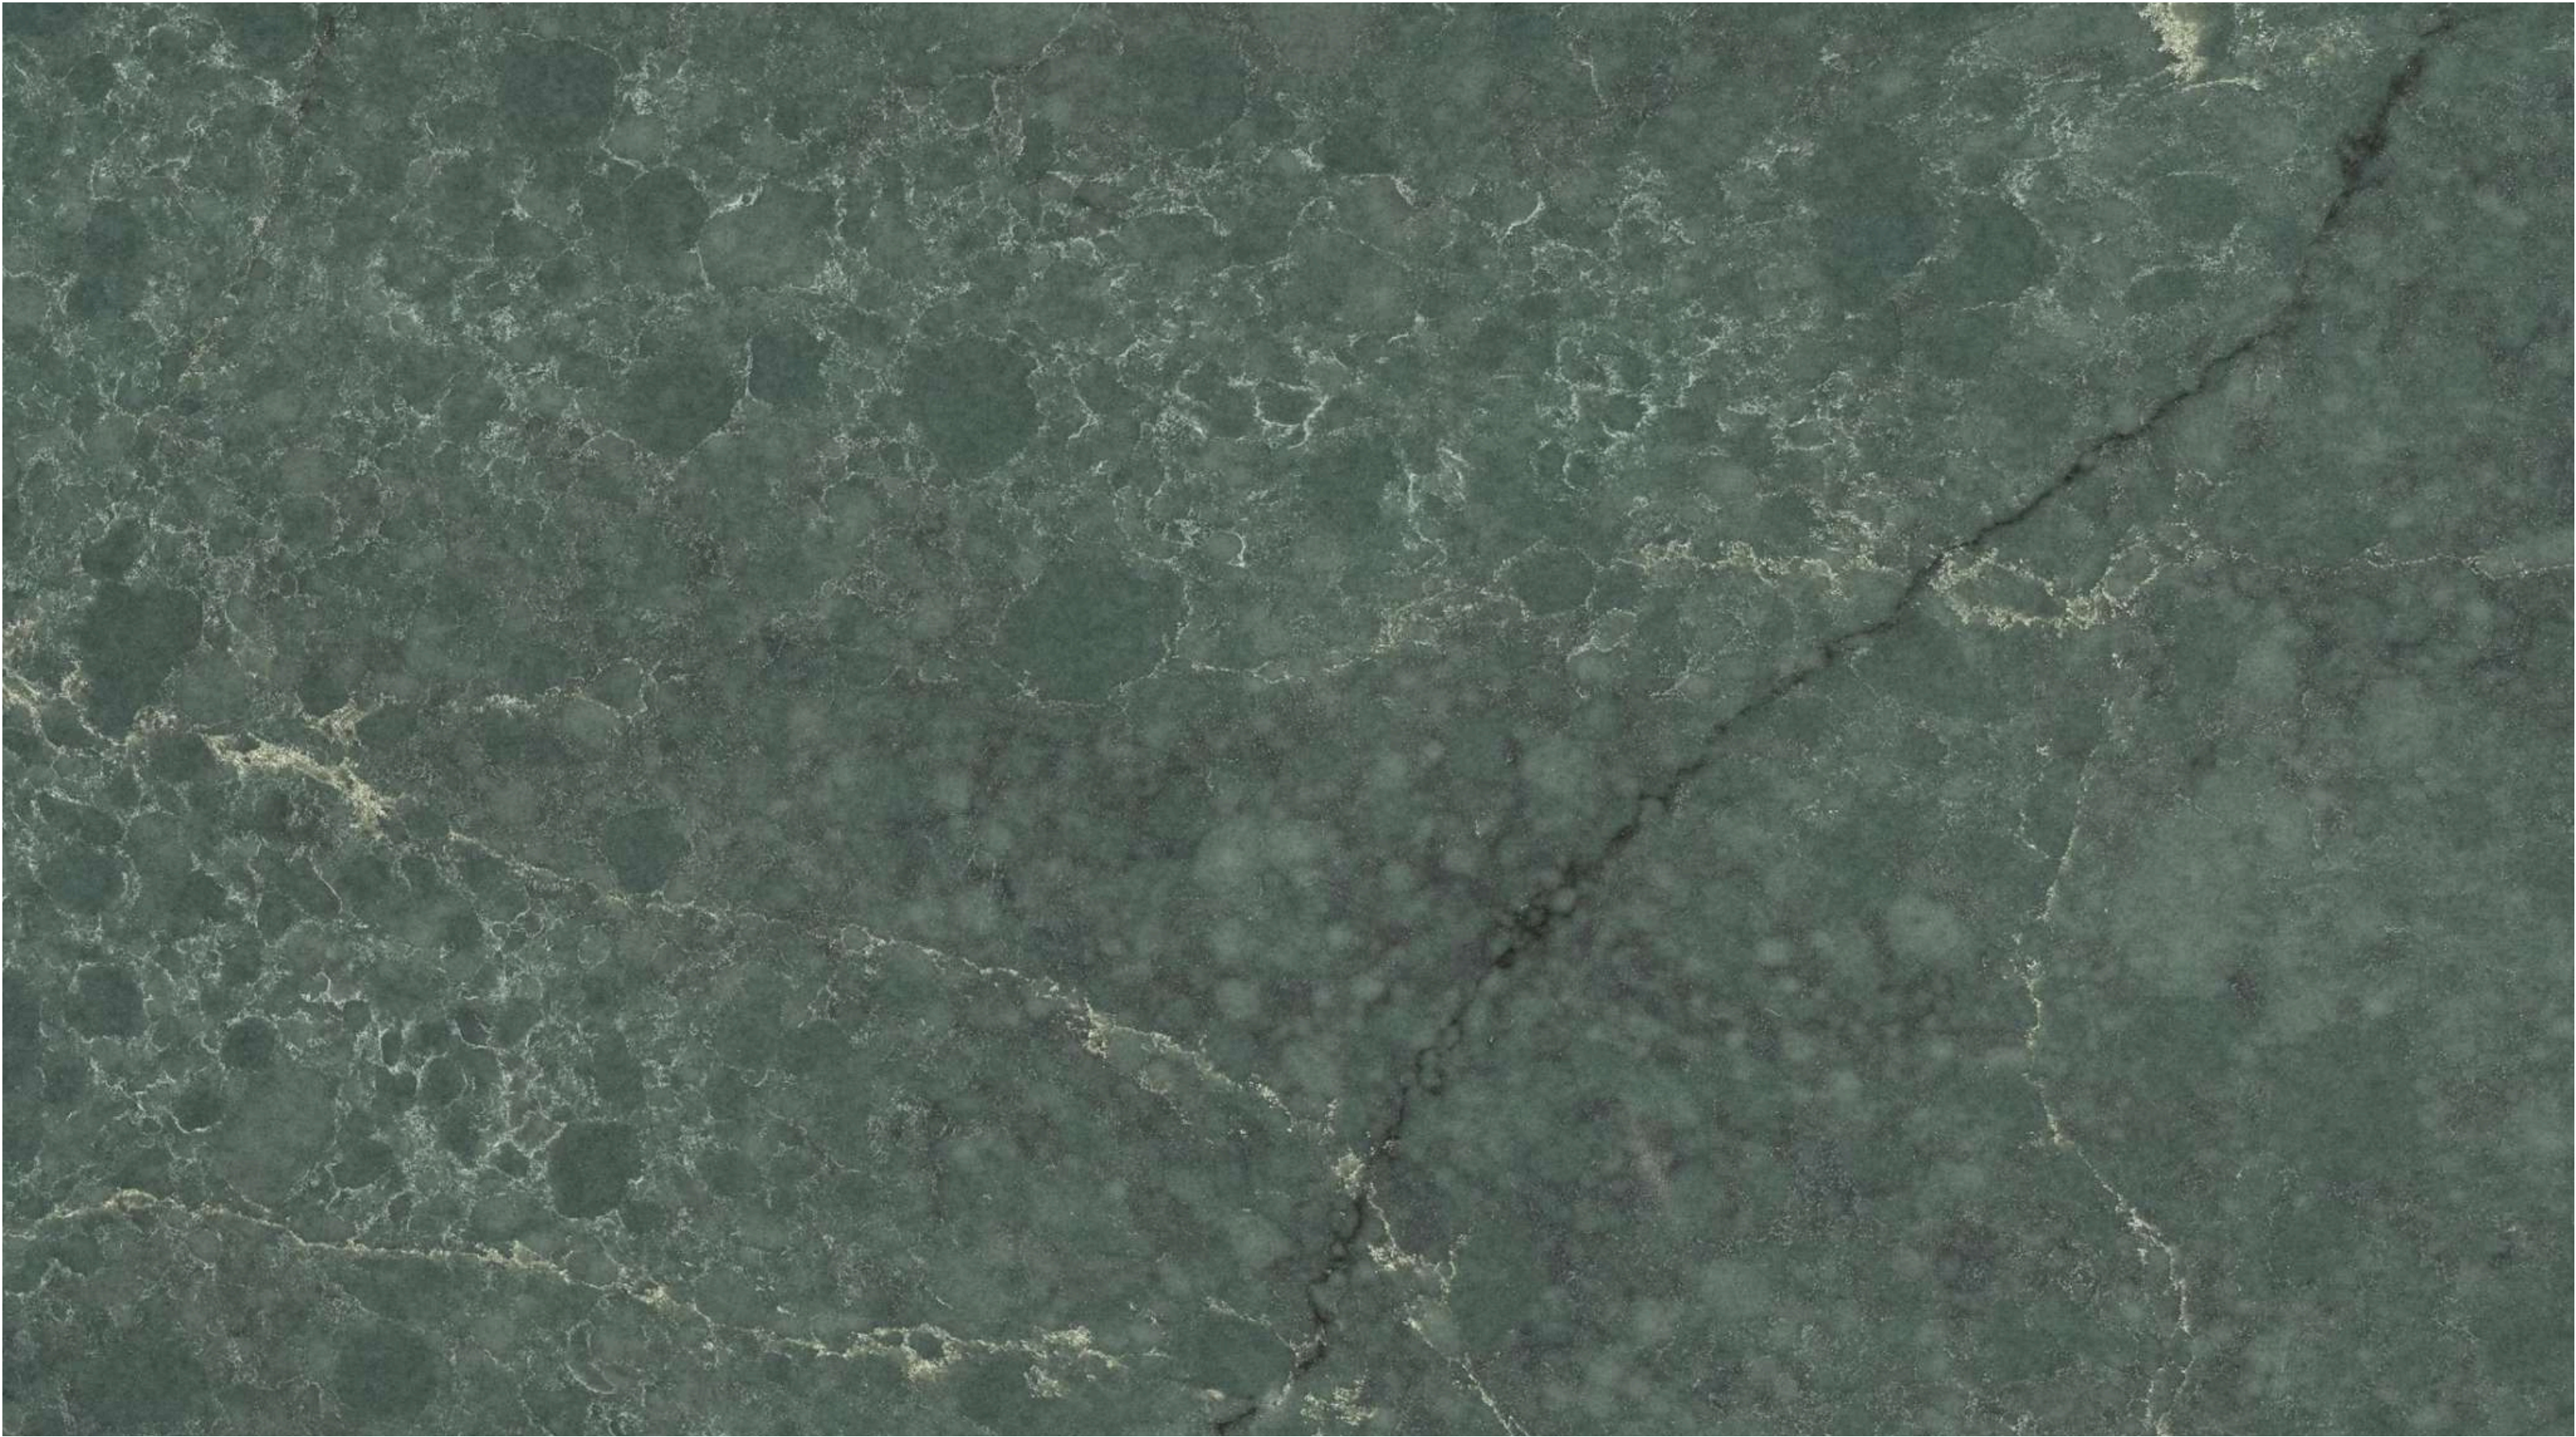

UNAPOLOGETIC STONE

Bold materials define space with intention. Deep greens, intense blacks, and pronounced veining turn surfaces into confident focal points—graphic and unapologetic.

With clarity and contrast, strong colors and large-scale veins become architectural gestures. The Statement is about presence, where material leads and the space follows.

 Dimensions:
10' 9" × 5' 5"

 Thickness:
3/4" - 1 1/4"

 Finish:
Suede

CARE AND MAINTENANCE

EASY CLEANING

Routine cleaning is simple and effortless. Use warm water and a mild soap to maintain the surface in optimal condition. This daily care is sufficient to preserve both the appearance and performance of the material.

FINISH PROTECTION

To protect the finish over time, promptly remove any spills, residues, or liquids from the surface. Avoid allowing substances to dry, as immediate cleaning helps maintain the original look and integrity of the countertop.

STAIN REMOVAL

For tougher stains, gently scrub the affected area using an appropriate non-abrasive cleaner. Follow with a thorough rinse using clean water to ensure no residue remains and the surface retains its refined finish.

QUARTZ SURFACES

Quartz surfaces are engineered materials composed of natural quartz aggregates combined with high-performance resins and pigments. This composition results in a dense, non-porous surface with high resistance to staining, moisture absorption, and bacterial growth. Quartz offers excellent mechanical strength, dimensional stability, and color consistency, making it suitable for countertops, work surfaces, and high-traffic applications. Its low maintenance requirements and controlled manufacturing process ensure reliable performance, durability, and long-term aesthetic stability in both residential and commercial environments.

RECOMMENDED APPLICATIONS

- Kitchen countertops
- Backsplashes and baseboards
- Bar counters
- Breakfast bars
- Flooring
- Fireplaces
- Window frames
- Wall cladding
- Vanity tops
- Bathroom countertops
- Desks
- Tables
- Staircases

ENGINEERED STONE, REFINED LIVING

Every surface begins with a design intention—but it’s the balance between material integrity and precise fabrication that defines its impact. TAG’s Quartz Surfaces Collection is curated to bring clarity, durability, and elevated elegance to contemporary interiors.

Crafted from engineered stone, each quartz surface offers controlled veining, chromatic consistency, and exceptional performance across kitchens, bathrooms, and custom millwork applications. Its uniform composition allows for seamless transitions, clean edges, and large-format installations that maintain visual continuity without sacrificing strength.

From soft neutrals to expressive stone-inspired patterns, these surfaces are selected to complement architectural language while responding to the technical demands of daily use. More than a countertop, quartz becomes a foundational element—where precision meets design, and craftsmanship defines every TAG interior.

TAG

INNOVATIVE | INTERIOR | CONSTRUCTION

At TAG, we collaborate with developers, architects, and designers to create spaces that stand the test of time. Our approach focuses on selecting high-quality materials that combine design, functionality, and aesthetics for residential, commercial, and hospitality projects. Every detail matters, and our expertise allows us to provide solutions that elevate the architectural experience in every environment.
